Students Fill Council Posts

Campaigning was climaxed Wednesday by the announcement of the winners in the Student Council and Board of Student Publications elections.

Representing the student body on the Board of Student Publications are Mary Beth Meyers and Earlene Timm, both juniors.

Dolores Brewer, Midge Buttes, Jim Leslie, and Max Voigt were the seniors elected to positions on Student Council.

Filling the junior posts on Student Council are Malanie Jeub, Sue Weindenhammer, Jack Petersen and Chip Statler.

Ginny Bohaty, Sharon Zagor, Larry Hammer and Chuck Saxton are the newly elected sophomore Student Council representatives.

'Wind Ensemble' To Be Presented

The University of Omaha Music Department will present a concert for Wind Ensemble directed by Kermit Peters, chairman of the Music Department, on Sunday, May 6, at 7:30 p.m. in the Student Activities Ballroom.

The program is open to all students and guests.

Beck 'Legacy' Topic May 10; Nobel Winner

The contributions of Nobel prize winner Frank B. Kellogg will be discussed by Prof. Paul Beck of the history department for the May 10 Legacy of Man.

The discussion will be broadcast at 9:30 p.m. by station KQAL-FM. Prof. Paul Borge of the speech department will moderate the program.

Radio Engineers Award to Nodean; Four Others Receive Mentions at OU

Walter Nodean, a physics major, received the "Top Student" award of the Institute of Radio Engineers at a meeting of that organization Monday.

Receiving honorable mention for the award were: Doug Cozad and Norm Firkins, both studying to be industrial engineers, and physics majors Ron Rose and Rod Hiddleston.

LASER, a new discovery which could either be of much harm or beneficial to man was featured at the meeting.

Frederick G. Suffield, an expert in the field, demonstrated LASER (Light Amplifier through Stimulated Emission of Radiation) to an audience of some 325.

Name Grafton Fall Gateway Editor-in-Chief

The Board of Student Publications named Arlo Grafton as the new editor-in-chief of the GATEWAY.

Arlo was appointed to the position Tuesday afternoon at the regular meeting of the board. Other applicants for the job were Mike Dugan and Mary Beth Meyers.

Arlo is currently sports editor and has been make-up editor

and a reporter. He is a 21-year-old junior majoring in journalism.

He will take over next fall.

He is now working at the Nebraska Psychiatric Institute in the communications division as an assistant photographer. During the football and basketball season Arlo covered games for the World-Herald.

Arlo is a member of Pi Kappa Alpha fraternity.

He said that the editorship is the "highlight of my college career."

Students Vote in Ma-ie Election: Choose Karolee (Bunny) Wybenga Attira XXVII

This morning at the 9 a.m. crowning ceremonies Karolee (Bunny) Wybenga was given the symbolic gown and headdress which go with the title of Princess Attira XXVII.

Her selection was made Wednesday by an all-school vote. Alan Taylor, president of the Student Council, made the announcement on the terrace of the Student Center.

"Bunny" was presented with the traveling trophy and a gift from the Student Council. Tonight she will receive the traditional bouquet of roses at the Ma-ie Day Dance to be held at Peony Park.

The Princess' court is made up of Sue West, Pat VanVoorhis and Julie Klingforth.

"Bunny" is a 21-year-old senior majoring in elementary education.

During her four years at the University she has been kept busy with all her extra-curricular activities. She is the past president and secretary of Alpha Xi Delta sorority.

For two years she has served on the Student Council. Last year "Bunny" was the secretary of the Student Council. She is the past vice-president of the Student Education Association and a member of Feathers.

She has been cheering the team through "thick and thin" as a varsity cheerleader for three years. "Bunny" is also a member of the Panhellenic Council.

In 1960 she was elected Sigma Phi Epsilon Sweetheart. She is active in the Women's Recreational Association.

After graduation in June "Bunny" will be taking two big steps. First, she will be teaching in a junior high school. And second, she plans to marry Terry Olsen in June.

This afternoon "Bunny" and her court will ride on the O Club float in the parade through downtown and past Creighton University.

The enthusiastic Ma-ie "Day-ers" began the day's festivities at a 6:30 a.m. TGIF party. Following the twist party the early morning group ate breakfast on the terrace of the Student Center.

After the crowning ceremonies the Student Council sponsored a game time on the women's P.E. field. There were prizes for bubble gum blowing, egg tossing, pie eating, tire jumping, potato sack racing, three-legged racing and balloon popping.

The annual picnic will feature ice cream bars, hamburgers, potato chips, baked beans, pop and milk. The 50 cent meal will be served in the Pep Bowl at 11:30.

All the floats and decorated cars will begin assembling for the parade in the parking lot south of the Fieldhouse at 12:30. Only registered cars and floats may be in the parade.

The parade will move from the campus east on Dodge to 30th, north to California, east (past Creighton University) to 16th, south to Farnam, west to 19th, north to Dodge, then will return west to the University. The parade begins at 1:30 p.m.

There will be twistin' to end the day in a whirl wind.

Eddie Haddad will play for the annual Ma-ie Day Dance from 9 p.m. to 1 a.m. The winners of the best float and best decorated car will be announced at the dance. One activity ticket per person will be the admission price to the dance.

The Ma-ie Parade will start at 1:30 p.m. from the field house drive. It will proceed east on Dodge to 30th; north on 30th to California; east on California to 16th; south on 16th to Farnam; west on Farnam to 19th; south on 19th to Dodge and west on Dodge to OU.

Journalism Students Pres to Review AFROTC Cadets

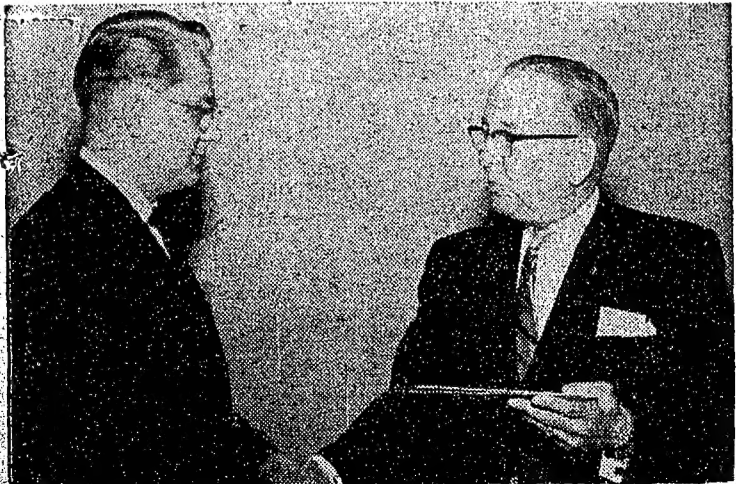

Teams of journalism students are making visits to the high schools in the Omaha area to inform the students and stimulate interest in college journalism and journalism careers.

Gail Grove, past editor of the GATEWAY, Mary Beth Meyers, news editor, and Arlo Grafton, sports editor, spoke at Lewis Centrl High School, south of Council Bluffs Tuesday.

Malanie Jeub, 1962 Tomahawk editor, Miss Grove and Grafton spoke at Millard High School.

The President's Day Review of the AFROTC Cadets will take place next Friday morning, May 11, on the football field at 10:30.

This year at the annual event, twenty-five medals and awards will be presented to the Advanced and Basic cadets in the program. Among these awards and medals are: Professor of Air Science Medal, President's Medal, Chicago Tribune Medals and AFROTC Staff Medals.

President Milo Ball presents Institute of Radio Engineers Award to Walter Nodean, physics major.

The Gateway

The GATEWAY is published weekly by students of the Omaha University Department of Journalism. Editorial comment and signed letters to the editor are not necessarily representative opinions of the faculty administration or student body.

Editor-in-Chief.....Bill Vogt

Editorial Comment

An Omaha man was on campus this past week handing out literature for the "Midwest School of Anti-Communism."

Richard L. Beem wanted a story in the Gateway promoting the school's "youth and family night."

This is it.

The "Midwest School of Anti-Communism" is being sponsored by a committee of Omahans in association with the Christian Anti-Communism Crusade, Fred C. Schwarz, president.

Cost of the "full course" is \$20.

But Beem, an employee of the YMCA, emphasized that the "youth and family night" gathering May 10 at Municipal Stadium is "free."

"No collections or passing the hat," he said.

"There are Communists in Omaha," he said.

He didn't name one.

But, Beem said, Herbert ("I Led Three Lives") Philbrick had a "list" containing names of Omahans who allegedly are Communists.

"And Mr. Philbrick still works very closely with the FBI," he said.

Beem offered to explain the Midwest School of Anti-Communism to OU's sororities, fraternities and independents. We

don't know if he was successful.

Being anti-communist is fine. Not being anti-communist, we suppose, is something like being against motherhood, the flag, etc.

So how could anyone criticize the Midwest School of Anti-Communism? Especially when its purpose is to "educate about communism?"

If Omahans want to learn more about communism and its methods, goals, objectives, etc., it would seem obvious that the knowledge is readily available.

Indeed, Omahans could easily turn to OU or Creighton University. There are men at both institutions who can more than match anything Schwarz and friends hand out.

Schwarz has said: "You can't be rational about communism." Can't buy that, Fred.

If it's information Omahans want about communism, they can get it in a factual, straightforward manner from the local universities. It won't be an exciting rally, but it will be a collection of calm, cold facts.

It would seem that a person wanting to fight communism could do well by directing his interests to what makes democracy tick.

The Midwest School of Anti-Communism? Who needs it?

The opportunities for learning are here. They may not be as exciting, but they've been around longer than Fred Schwarz. And they will be here when he leaves.

—Paul Beavers

Seniors Meet; Plan Activities

Senior graduation period activities were discussed and approved at two class meetings held April 26 in the Student Center.

Class president Ken Brink announced that the Senior Banquet will be held at the Town House on June 2. Dr. Aldrich Paul will speak at the banquet which will be followed by a semi-formal dance.

Ken also advised that Senior Day has been approved for May 18 and that all seniors will be excused from classes that day. At an 11 a.m. senior gathering in the Student Center ballroom, awards will be presented to class members for scholarship and other school activities. Also, President Bail will address the group and Dr. Ralph Wardle will deliver the class charge. Afterward, a tree will be planted on the campus by the class officers.

A committee was appointed to select a suitable class gift to the University. According to the class treasurer, the cost of the gift and all other expenses should not exceed six dollars per person. Permission is being requested to set up booths in the Student Center and the Administration Building where the fee may be paid.

Letters giving complete details of the various functions will be mailed to all seniors within the next few days.

Retailing Dept. Will Hold Coffee Hour

The Retailing Department of the University of Omaha will hold a coffee hour Wednesday afternoon, May 9, from 3:45 to 5:00.

The coffee hour is for the Associated Retailers of Omaha and other employers of students in the retailing program at the University. It will be held in the Student Center Ballroom.

Outstanding Band Award to Bogacz

Awards for Outstanding Bandsman and for achievement were presented by the Music Department following their formal Presidential Band Concert.

President Milo Bail presented the awards. The Outstanding Bandsman was Tom Bogacz, a junior and music major. He is the first chair clarinetist and Concert master.

Achievement awards were silver keys for completion of two years in the Music Department and gold keys for four years.

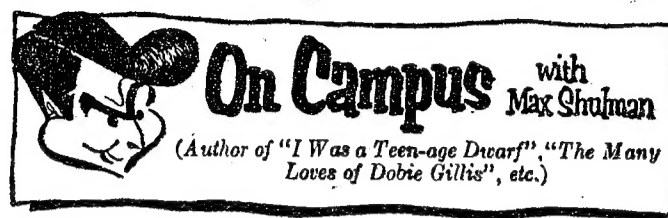

Canterbury Picks Lynn as '63 Prexy

The Canterbury Club, the Episcopal group for college age young people, will meet May 6 at St. Barnabas Church, 40th and Davenport Street.

The meeting will begin at 6:30 and the speaker will be Dom Patrick, a Benedictine monk.

At the group's meeting last week, officers for next year were elected.

They are president, Stuart Lynn; vice president, Mike McCabe, and secretary-treasurer, Olive Graham.

CRAM COURSE NO. 4: BATHYMETRY

Continuing our series of pre-final exam cram courses, today we take up bathymetry—the study of ocean depths.

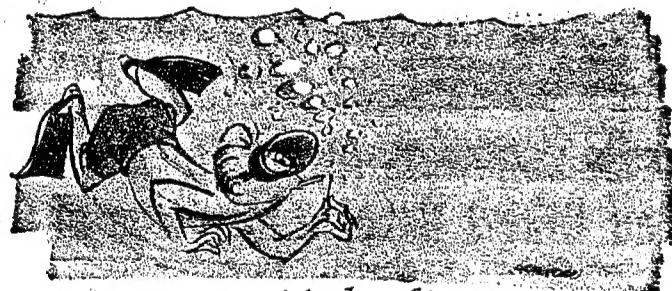

Admittedly, this is not a terribly popular course on most campuses. And small wonder. In the whole world there is only one bathyscape, and only two people can get into it.

Nevertheless, the study of ocean depths is of great importance. Why, do you realize that the ocean is by far the world's largest biological environment? The ocean has more than three hundred times as much living room as all the continents and islands combined! Unfortunately, only fishes live in it.

And small wonder. Who'd want to live some place where he couldn't smoke? Surely not I! I wouldn't give up my good Marlboro Cigarettes for the Atlantic and the Pacific put together. Nothing could induce me to forego Marlboro's fine mellow flavor, Marlboro's clean white filter, Marlboro's flip-top box that really flips, Marlboro's soft pack that's really soft. Let others repair to the spacious deeps. Me, I will stick with my Marlboros and the tiny garret I share with a tympanist.

But I digress. Back to the oceans. The largest, as we know, is the Pacific, which was discovered by Balboa, a Spaniard of great vision. To give you an idea of Balboa's vision, he first saw the Pacific while standing on a peak in Darien, which is in Connecticut.

Even more astounding, when Balboa reached San Francisco, he clearly saw the Hawaiian Islands! Being, as we know, a friendly cuss, Balboa waved merrily to the Hawaiians and shouted, "Great little ocean you got here, kids!" The Hawaiians, also, as we know, friendly cusses, waved back, declared a half holiday, organized a luau, built a cheery fire over which they prepared several gallons of poi, a suckling pig, and Captain Cook. This, of course, was the origin of Cooking.

But I digress. The Pacific, I say, is the largest ocean and also the deepest. The Mindanao Trench, off the Philippines, measures more than 5,000 fathoms in depth. (It should be pointed out here that ocean depths are measured in fathoms—lengths of six feet—after Sir Walter Fathom, a noted British sea measurer of the seventeenth century who, upon his twenty-first birthday, was given a string six feet long with which he used to go scampering all over England measuring sea water until he was arrested for loitering. A passion for measuring seems to have run in the family; Fathom's cousin, Sir Sol Furlong, spent all his waking hours measuring race tracks until Charles II had him beheaded in honor of the opening of the London School of Economics.)

But I digress. Let us, as the poet Masefield said, go down to the seas again. (The seas, incidentally, have ever been a favorite subject for poets and composers.) Who does not remember Tennyson's "Break, break, break"? Or Byron's "Roll on, thou dark and deep blue ocean, roll"? Or the many hearty sea chanties that have enriched our folk music—songs like "Sailing Through Kansas" and "I'll Swab Your Deck If You'll Swab Mine" and "The Artificial Respiration Polka." My own favorite sea chanty goes like this:

*A girl loved a sailor and he did jill her,
And she did weep and roar-ho!
Until she found a perfect filter,
And a perfect smoke—Marlboro!
Sing hey, sing ho, sing ring-a-ding-ding,
Sing tars and spars and patches,
Sing pack and box and lots to like,
And don't forget the matches!*

© 1962 Max Shulman

The landlocked makers of Marlboro wish you smooth sailing through your final exams and smooth smoking—with Marlboro, of course. Have YOU settled back with a Marlboro lately?

Bridge Games Set for May 13

The first annual Duplicate Bridge Tournament will be held in the Student Union Card Room May 13. The tournament will be run off to a finish the same day.

Interested students should sign up at the information desk in the Student Union. No cost is involved but students can sign up as partnerships only.

In case you're in the dark as to what duplicate bridge is, it's exactly the same as contract bridge except everyone will at one time play a hand of equal value. The judges will decide who played the best on the same cards. There is more dependence on skill than on the luck of the cards.

Entrants have until May 11 to sign up. Rules for the game will be posted at the information desk.

Participants will be given master points towards a Bridge Trophy with accordant publicity by the National American Contract Bridge Association.

Second-Year Latin Returning to OU

A course in second year Latin, Anthology of Latin Literature, will be offered again next fall.

The class is being revived by the department of foreign languages and literatures due to the large percentage of entering freshmen who have completed two years of Latin in high school which is equivalent to one year of college Latin.

In this way, these students will have the opportunity to fulfill their foreign language requirement in Latin since they have already earned 10 of the 16 required credit hours.

The Soviet Bureau of Oceanography has reported more than 10,000 volcanoes below the surface of the Pacific Ocean.

Reading Lab Molds Skill

By Fran Campbell

Omaha University is striving to keep up with the trend of today's fast-moving world by offering a reading improvement course to develop reading skill.

This is not a new course at OU; it has been offered in its present form since 1955.

Although the official name of the course is Reading Improvement, it also includes study techniques. It is a one-credit-hour course designed to do just what the name suggests.

The director of the reading laboratory is Dr. Harry W. Johnson.

The course consists of one lecture period and three lab periods of "working with the machines," each week.

The machines are designed so that a plate can be set to move down the page of the inserted material at a determined rate. This rate can be adjusted by the student.

After reading the material, the student takes a comprehension test and records his score on a progress chart. 75 per cent comprehension is necessary to qualify a score.

Students who reach 1,000 words per minute or higher become members of the 1,000 Club and receive a certificate and pin.

Students in the course this semester that have reached that level are Lawrence Horton, Henry Gendrezig James Robinson, Gene Finkler, Tom Doherty, Marilyn Arundel, Stephen Martin, Linda Elliot, Walter Hayes, James Calder, Lester Curtiss, William McCallum, Parrillo Camille, Ed Martin, Robert Campbell, Linda Mench, Joyce Denne, Ed Clay, Sharon Amundson, Howard Crocker, Neal Reinwald and Ellen Goesser.

Reading at the highest rate this semester is Lawrence Horton, freshman. Lawrence passed the 6,660 words per minute mark. He started at 500 words per minute.

"I don't read at this rate all the time," Lawrence said. "The speed depends largely on the material. When I'm reading a text, I slow down considerably."

Lawrence said that he reads a lot by word association. "This course has helped to boost that. The important words just seem to stand out on the page," he added.

Dr. Johnson emphasized that many students find the study techniques the most helpful part of the course.

Orchesis Members Elect New Officers

Shirley Johnson was elected president of Orchesis at a meeting May 1. Other officers selected were Mary Abersfelder, secretary and Nancy Norton, publicity chairman.

Plans were also completed at the meeting for the High School Dance Clinic to be held May 8 at 4 p.m. in the West Quonset.

The troupe will also perform for the American Association of University Women May 12 at 2 p.m. in the Town House Ballroom.

Six Students Plan Summer Seattle 'World's Fair' Trip

By Steve Gould

Once in a while, even occasionally, you will be asked a question. The question will probably not be difficultly worded; the correct answer will probably consist of not more than five words. It's a game called, obviously enough, "Ask Me a Question."

Ready to play? Here's the question: "What is red, pink, and polka-dotty?"

You, of course, will counter with the question, "What is the 'Miss Joanie'?"

The three-word answer you will receive is easy enough: it's a bus.

Painted red, with pink fenders and chartreuse polka-dotty, the "Miss Joanie"—named inconspicuously after its matron saint—will carry six OU male students to and from the Seattle World's Fair this summer.

Here's a rundown on those six lucky men: Jim Burroughs, sophomore; Bill Campbell, junior; Jack Schram, sophomore; Bob Schenk, senior; John Larson, sophomore, and Jim Spearman, sophomore.

About as quiescent as a hoot from a hollow hound, the "Seattle or Bust" sign on the front bumper is a reminder to oncoming travelers of their destination. But where is Bust?

There's a "Home Sweet Home" sign on the back of the buggybus to let those behind "Joanie" know that bus can be more than a bus to some—and for six men it's a home.

The glorified station wagon cost \$100 initially, but the full cost of fixing up the interior, posterior and preterior is estimated to be from \$250 to \$300. The engine has been completely overhauled and used tires have been purchased.

Picture this for a home built for six: white curtains, a couch, several chairs, a table, an ice-box and six custom made sleeping berths (that's bunks to foreigners). Sadly to say, there'll be no guest bedroom.

The six men plan to leave shortly after this semester's end and stay in Seattle all summer. They estimate traveling time to be from one to one-and-a-half weeks going, and who-knows-how-long coming back.

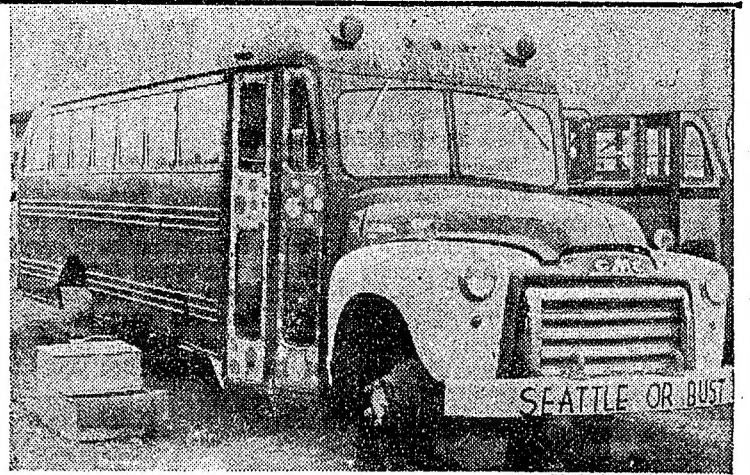

If all goes well OU's six adventurers will work in Seattle either at the World's Fair or in various sundry jobs. They hope.

They've been working on "Miss Joanie" about six weeks. If you want to see the results of their efforts, that fabulous contraption will be riding the wave of fame in the Ma-ie Day parade this afternoon.

Art Club Auction Planned Sunday

The Art Club's fourth annual art auction will be held May 6 in the Student Center.

A coffee hour and preview showing will be held at 1 p.m. The auction will begin at 2 p.m.

—Photo by Mike Dugan.

"Miss Joanie" will make her debut in today's Ma-ie Day Parade.

Frisbees Return to Campus

By Mike Dugan

Spring has arrived and with it those activities that draw students out of the lounge and Quampi Room and onto the campus lawn.

One of the most recent activities seen on campus has been a few groups of energetic 'Frisbee' fans racing around all afternoon throwing this frail piece of plastic that seems to have enough talent to outwit even the most athletic types.

The 'Frisbee' alias 'dirt' frisbee, 'nick' frisbee and pulto plate contrary to popular belief, is not a 'fad' in the true sense.

As a matter of fact, 'Frisbee' has been around for many years.

It seems to travel around to various college campuses of the nation without taking up permanent residence anywhere in particular.

'Frisbee' is a game of many faces.

Years ago (I am told), eastern college men played a game called 'Frisbee', using an old circular saw blade.

They soon had more wrists than hands on these campuses.

Today's 'Frisbee' is a plastic disc eleven inches in diameter that is thrown in a manner not unlike that of a discus.

The player's toughest opponent when throwing this sensitive disc is the wind. It must be thrown straight and level and have just the right amount of 'english' on it to make sure it goes where he intends it to.

The rules of 'Frisbee' are determined by the players whenever they get together for a game. The standard rule is that the disc must be thrown and caught using only one hand. The remainder of the rules depend on how energetic the players feel.

Picture on page five.

"Tareyton's Dual Filter in duas partes divisa est!"

says veteran coach Romulus (Uncle) Remus. "We have a saying over at the Coliseum—"Tareyton separates the gladiators from the gladioli". It's a real magnus smoke. Take it from me, Tareyton delivers de gustibus—and the Dual Filter does it!"

Question of the Week

By FRAN CAMPBELL
Denny Waterman, Photographer

QUESTION: Which do you prefer — curve grading or straight percentage grading?

Chuck Haynes,
freshman,
liberal arts

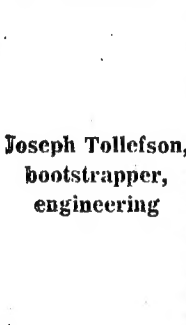

Chuck Haynes, freshman, liberal arts: "Straight percentage grading because I feel it gives a better chance to show what you can do with out competing with the bootstrappers."

Kathy Brady
sophomore,
speech

Kathy Brady, sophomore, speech: "I prefer curve grading because it adjusts the performance rating of the students in accordance with the difficulty of the exam."

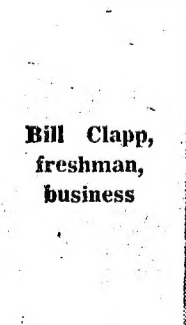

Joseph Tollefson,
bootstrapper,
engineering

Joseph R. Tollefson, bootstrapper, engineering: "I prefer straight percentage grading because it is more comprehensive. No specific class fits the normal curve."

Joyce Denne,
freshman,
elementary
education

Joyce Denne, freshman, elementary education: "Curve grading because you receive fairer grades according to the class as a whole. It gives everyone an equal chance."

Bill Clapp,
freshman,
business

Bill Clapp, freshman, business: "It really doesn't make any difference to me. If you study, you can get good grades either way."

Jim Leslie,
junior,
history

Jim Leslie, junior, history: "I think curve grading is better in the under level courses. But in the upper level courses I feel straight percentage is best because you should be graded not against other individuals, but against yourself."

Karolee
Wybenga,
senior,
education

Karolee Wybenga, senior, education: "I prefer curve grading because the material on the tests is not always given in lectures or in the book. Curve grading gives students a better opportunity to excel in class."

WRA Play Day Set

All local high school students have been invited to the OU High School Play Day sponsored by the Women's Recreation Association on Saturday, May 5 from 9 a.m. to 1 p.m.

The program will include such activities as softball, basketball, badminton, trampoline and hurdles.

Alumni Assn. Nets \$12,307; Six-Week Fund Drive Ends

April 12 climaxed six weeks of phone calls and personal solicitations by the Alumni Association in connection with their 10th annual fund drive.

On this date a banquet was held for the fund drive workers, and it was announced that this year's drive netted \$12,307, a \$2600 jump over the 1961 total.

However, this figure is not complete since it represents not only received cash but also reported pledges. All donors have until August 31, 1962, to fill their pledges. Also, many out-state reports have not been turned in yet.

A contributing factor to the success of the drive, which is completely voluntary on the part of all donors, was the organization of the workers.

The initial donor portion was carried out through the efforts of 27 alumni who personally contacted initial donors—both alumni and non-alumni—during a six-week period.

The second segment of the drive, a three-week personal solicitation period, was manned by 185 workers phoning 4,000 Omaha-area alumni. Working under each chairman were six captains, and each captain had five workers assigned to him. Each worker was expected to telephone 12 people.

In addition, a "Calls for Cash" system was set up in the Student Center Alumni Office. Six extra phones were installed in the office for the three-week period. This enabled workers to come in at their will and tele-

phone "extras" besides their 12 assigned calls.

The third set of workers were the 93 alumni contacting donors in 68 major cities in the nation.

To promote the drive, the organization sent out three publications, including "Today," a 12-page progress report, and a newsletter featuring past and present Alumni Scholarship recipients.

Where does the money go? The funds collected are allotted to four major areas: (1) four alumni scholarships; (2) grants and aids for athletes; (3) the building fund which has provided furnishings for the library and Student Center; and (4) alumni activities.

What are the goals of future drives? "In the future, we hope to expand the drive to include more non-alumni donors due to the fact that the University is tax-supported and there are many things which tuition and taxes cannot purchase," reported Betty Davis, alumni executive secretary.

Helia Pico Speaks To Honorary Group

Mrs. Helia Pico, Cuban refugee, was the guest speaker at a dinner for members of Kappa Delta Pi, Phi Delta Kappa and Pi Lambda Theta. The dinner was held in the Student Center Ballroom last night.

Mrs. Pico, now a teacher at Omaha South, spoke on her experiences in Cuba.

Newman Members Convened in K.C.

Ten members of the Newman Club, organization for Catholic students, are leaving this afternoon to attend the Newman Convention in Kansas City. The Convention will be held May 4, 5, 6.

Students participating are: Kenneth True, Jerry Vincenzi, James Bronowski, Mary Helen Kroad, Katherine Metz, Mary Young, James Ekryja, Terrence Pesek, Robert Wilson and Father G. Newnoon.

AFROTC Conducts Exercising Routine

It seems the University has acquired a new group of sports enthusiasts.

For the last three weeks, a troop of energetic men has been practicing their push-ups, pull-ups and back stretches from 6:30 to 7:30 a.m. every Tuesday and Friday in the Fieldhouse.

When asked, they reported that they were not the new track team and that their early morning routines were completely voluntary on their parts.

They added that these exercises were all a part of the AFROTC Physical Fitness Program, initiated by Ernie Gorr, assistant professor of physical education. Mr. Gorr began the program to prepare all junior cadets for the ROTC summer training camps.

The benefits of the program are as yet undetermined, but one cadet reported that he hasn't slept through a 7:30 class lately.

Career Cues:

"An interest in student activities can pay you dividends later on!"

Gibson F. Dailey, Asst. to the President
George A. Fuller Company

"Extracurricular activities never really interested me... architecture and construction always did. It's a paradox, though, because as it turned out student activities gave me a big jump on my career in construction."

"Studies educated me. But college activities provided the confidence I needed to approach the business world. Looking back, it was these activities that really gave me

my first knowledge of people, administration, leadership.

"Working for the college newspaper, fun magazine, and engineering bulletin taught me writing—a gift I use today in the promotion and getting of new business. Student Council brought the chance to work with other men—a daily occurrence now. Penn's theatrical group and engineering shows helped me relax in front of an audience then—and help me find my voice when I'm talking to large groups now."

"True, today's heavy college curriculum doesn't allow much time for activities. There wasn't much time for them in my day either. I burned a lot of midnight oil on architectural studies, but difficult as they were I still found time for student activities.—I'm mighty happy that I did."

"If you have time during the rest of your years in school to take an interest in activities—do it! It's certain to pay big dividends in an inspiring future in the business of your choice."

Gibson Dailey started with the George A. Fuller Company, the largest building construction firm in the country, right after college. Today he is assistant to the president. Gib started smoking Camels while still on the campus of the University of Pennsylvania. He's been a Camel smoker ever since.

Smoking more now but enjoying it less?...change to Camel!

Have a real cigarette-Camel

Student Backing Is Sought As Council Committee Grows

By Sharon Johnson

"Right now the Student Center Program Committee is in its baby stage but with student backing, the committee and its program will grow to the level of other colleges across the nation," said Colleen Richmond, a student member of the committee.

The Student Center Program Committee is to consist of 15 student members and seven faculty members. The committee has the responsibility to plan, develop and carry out a series of events—social, cultural, educational and recreational—for all students who use the Student Center.

Typical of the activities sponsored by the committee are: the film series on Monday nights, TGIF dances, post-game dances, music concerts, lectures, art exhibits and tournaments in bridge, chess, snooker and bowling.

The committee is also called upon to help plan special events such as the first birthday party of the Student Center.

The most current project of the committee is the installation of an opinion board located near the check stand on the main floor. If any student wants to express his opinion, he may write it out, sign it and post it on the board. The matter will then be taken up before the committee.

One-half of the board will be reserved for legitimate communications between students. Each communication must be printed on a 3x5 card, signed and dated. No posters as such shall be permitted on the board.

The committee was inaugurated when the Student Center opened. It meets once a month in the Student Organizations Office.

Four members of the committee recently travelled to a planning meeting for the upcoming Region 8 convention of the National Association of College

Unions. OU student Judy Moe is currently serving as corresponding secretary for Region 8.

Chairman William Gerbracht suggested that any students who have constructive ideas for the Student Center program can contact any committee member or anyone in the Dean of Students Office in the Student Center.

Current student members of the committee are: Shari Zagor, Lyle McFarlin, Max Voight, Kendall Brink, Dennis Graves, Lynn McCallum, Jana Doxon, Liz Vinski, Mary Hurlburt, Judy Moe, Colleen Richmond, Bernie Grossman, and Russ Mullins.

Faculty members are chairman William Gerbracht, Mrs. Thelma Engle, Miss Virginia Frank, Joseph Hanna, John Heckinger, Dean Elizabeth Hill, Dean Kirk Naylor, Ronald Pullen and Mrs. Rosalee Saltzman.

Roger Brooke Will Address Three Groups

Mr. Roger Brooke, British foreign service officer, will address three groups at OU on May 7.

At 8:30 a.m. in Room 385, Administration Building, he will speak to the English History class on British foreign policy. At 10:30 a.m. he will discuss British politics with the English Constitutional History class in Room 308 Administration Building. And at 12:30 p.m. he will address a luncheon of the Omaha branch of the English-Speaking Union in the Student Center.

An open invitation to all these talks is extended. Those wishing to attend the luncheon should contact Dr. Ralph Wardle today for reservations. The cost of the luncheon is \$1.50.

Mr. Brooke is currently second secretary of the British Embassy in Washington, D. C., where he specializes in U.S. internal politics and Berlin affairs. From 1955 to 1958 he was private secretary to the British Ambassador in Bonn, Germany, and from 1958 to 1960 he was assigned to the Foreign Office section dealing with Greek and Yugoslavian affairs.

Nature Atlas 'On Top' During OU Book Sale

The duplicate book sale which the library held during National Library Week brought some unusual results according to Ellen Lord, the University librarian.

Miss Lord said that 770 bids were received on the 200 books which were out for the sale.

The book which got the highest bid in the whole sale, \$5.01, also got the most bids, 51. This book was Hammonds Nature Atlas.

The next highest bid, \$5 was received on the Anthology of English Literature.

The lowest bid which got a book was ten cents.

Miss Lord said that much interest was shown in books in the fields of literature, music, business and history. Little interest was shown in fiction due to paper back editions.

"The sale was a big success," said Miss Lord, "and created the interest in books that I hoped it would."

Girls Play Wm. Tell

Arlene Baker of Unaffiliated took first place with a score of 191 in the Women's Recreation Association Archery Tournament held April 10 and 11.

Jan Seaman of Alpha Xi Delta scored 185 for the second place position while Mary Abersfeller of Unaffiliated captured the third place spot with a score of 176.

New IBM System Brings Changes In OU Registration Procedure

Four Cards Speed Registrar's Chore

By Shirley Johnson

The new IBM system has initiated a few changes in the registration procedure and will eventually speed up the entire registration process.

One of the major changes is in the registration forms. Four of these cards (Permit to Enroll card, Official Enrollment card, General Information card and the Auto Application card) will be filed alphabetically under the student's name in room 143 of the Administration Building. The first step of the student in the registration procedure will be to pick up this packet of cards.

After the student has filled out these four cards, he will then call for the course cards and permit-to-attend-class cards.

Under the IBM system, grade reports will be issued within two days following the rendition of final grades by the faculty. The honors and suspension lists will follow within 24 hours.

Another change will be found in the final grade reports received by the students. The grade card will now report the total credits attempted, total credits earned and the grade average for the past semester and for the entire time the student has been enrolled at this university.

Currently enrolled day class students may pre-register May 7-11 for the fall semester 1962-63. Summer session registration may be handled by mail or June 7, 8, and 9 in the Registrar's Office.

Aid Is Available To OU Students

Financial aid is available to Omaha University students in the form of scholarships, grants and loans.

Heading the list of available scholarships are the OU Regents' Scholarships, which are good for full resident tuition. Twenty of these are awarded annually to high school graduates on the basis of competitive examinations. These scholarships are renewable upon maintenance of a 3.0 cumulative average.

Ak-Sar-Ben Scholarships good for \$75 a semester are awarded on the basis of need to high school graduates upon recommendation of the high school principal. Thirty-two of these are now available, with the promise of 16 more next semester. These scholarships are renewable to recipients in good standing.

The University also awards 24 Honor Scholarships to the top sophomores, juniors and seniors, boy and girl in each of the four colleges. Qualification for this scholarship is a 3.5 cumulative average. Honor scholarships cover full resident tuition.

University Tuition Grants are available to regularly enrolled students at OU who are in good standing, but who need financial aid to continue school.

New Officers, Pledges Announced by AEPI

Alpha Epsilon Pi fraternity elected officers and announced new pledges at a recent meeting.

Officers for the coming year include: master, Louis Rich; 1st master, Ed Schneider; scribe, Arnie Weintraub; exchanger, Nathan Schwalb; sentinel, Harold Babendeere; member-at-large, Karl Luefschuetz.

BOTH SIDES of the Official Enrollment Card (one side of card is shown above) must be filled out completely. The important change for the student to remember in connection with this card is to specify in the designated space, whether he is taking the course for undergraduate or graduate credit or auditing the course.

IN THE PAST, the student has received only one class card. However, under the IBM system, he will initially receive both a course card and a permit-to-attend-class card. The course card above goes to the IBM room for the permanent record files.

The above permit-to-attend-class goes to the student's instructor for his records.

2-Foot Widening Due for Drive

Plans were announced last week for the widening of the drive that leads up to the Administration Building from Elmwood park. The present width is 20 feet; the new width will be 22 feet.

Also, in these plans are the widening of the intersection located on the southeast corner of the campus. In addition to the widening, a turn-out lane should hold about five cars at one time.

The city of Omaha will do the widening of the intersection and the construction of the turn-out lane, and Omaha University will do the widening of the drive to the Administration Building.

Angel Graduates Honored at Tea

Graduating members of Angels Flight will be honored at a tea May 8. The tea will take place from 3:30 to 5:30 p.m. in rooms 312A and B in the Student Center.

Honored guests for the tea will be Dr. and Mrs. Bail, Dean Elizabeth Hill and Angels Flight sponsors.

Estate Confo Held In Student Center

The Estate Planning Conference was held in the Conference Center Wednesday. Designed for attorneys, accountants, trust officers, insurance brokers and other estate planners, the conference explained the most effective methods of estate planning and tax consequences.

'Return Journey,' 'Potpourri' Mon.

The Readers Theater will present "Return Journey," by Dylan Thomas, along with a "potpourri" of readings, Monday, May 7. "Curtain time" will be 7:30 p.m. in room 312 of the Student Center.

Opening the evening, five students will read selections of prose and poetry. Linda Love will read James W. Johnson's "The Creation;" Gail Yelvington will read "On Mary White's Death," by William White, and Mary Jane Cooper will read "Portrait of a Lady," by T. S. Eliot. Other readers will be Barry Goodlett and Barbara Larson.

Following a short intermission, "Return Journey" will be presented. It has been written as "a play for voices on the stage of the mind."

Members of the cast are: Ned Nossaman, narrator; Bari O'Dea, barmaid; Barry Goodlett, customer; Dave Whitlock, first voice; Gail Yelvington, second voice; Barry Goodlett, third voice; and Gail Enquist, fourth voice. Warren Gore, sponsor of the Readers Theater, will play the role of the old reporter.

Others in the cast are: Ward Schumaker, first young reporter; Gail Yelvington, second young reporter; Dave Whitlock, passerby; Ernest Carrier, school master; Ward Schumaker, promenade man; Elaine Battelle, girl one; Gail Enquist, girl two; and Jerry Chatfield, parkkeeper.

Brazil has more than 1,500 square miles of forests. More than 2,500 species of trees are found in them.

1-Act Plays Slated for Next Friday

Three student-directed one-act plays have been selected for presentation on Friday, May 11. The program will start at 8:30 p.m. in the main auditorium.

The plays to be presented are "This Property is Condemned" and "The Case of the Crushed Petunias," both by Tennessee Williams, and "The Monkey's Paw," adapted by Louis N. Parker from the story by William W. Jacobs.

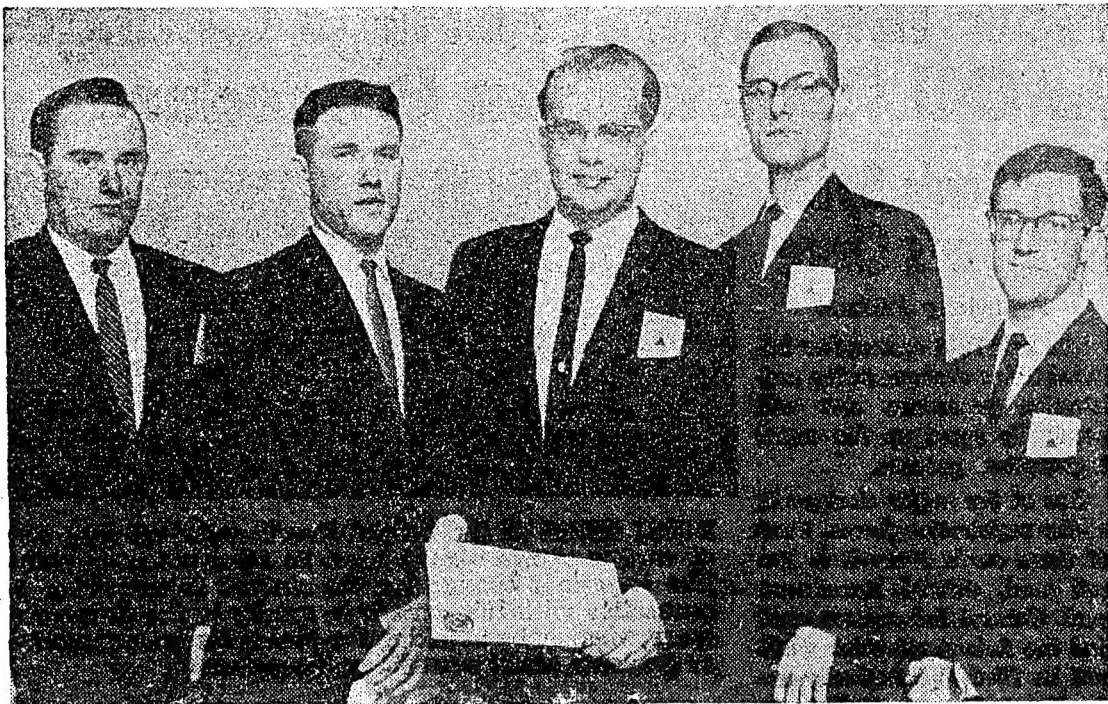

In "This Property is Condemned," Ann Davis will play Willie and Lou Gorr will play Tom. It will be directed by Mary Francis Schneider, with assistance from Dick Sandall.

"The Case of the Crushed Petunias" will feature Marilou Thibault as Miss Simple, Ann Ervin as Mrs. Dull, Paul Kaufmann as the young man, and Jim Howard as the officer. Direction will be by Beverly Merica. Sheila Nelson will be the assistant director.

In "The Monkey's Paw," Jim Kemplin will play Mr. White, with Alice Hewitt as Mrs. White. Bill Bease will play Herbert, David Barton will play Sgt. Maj. Morris, and Frank Drefs will play Mr. Sampson. Direction will be by Fred Crouter.

Leaders Hold Party for Kids

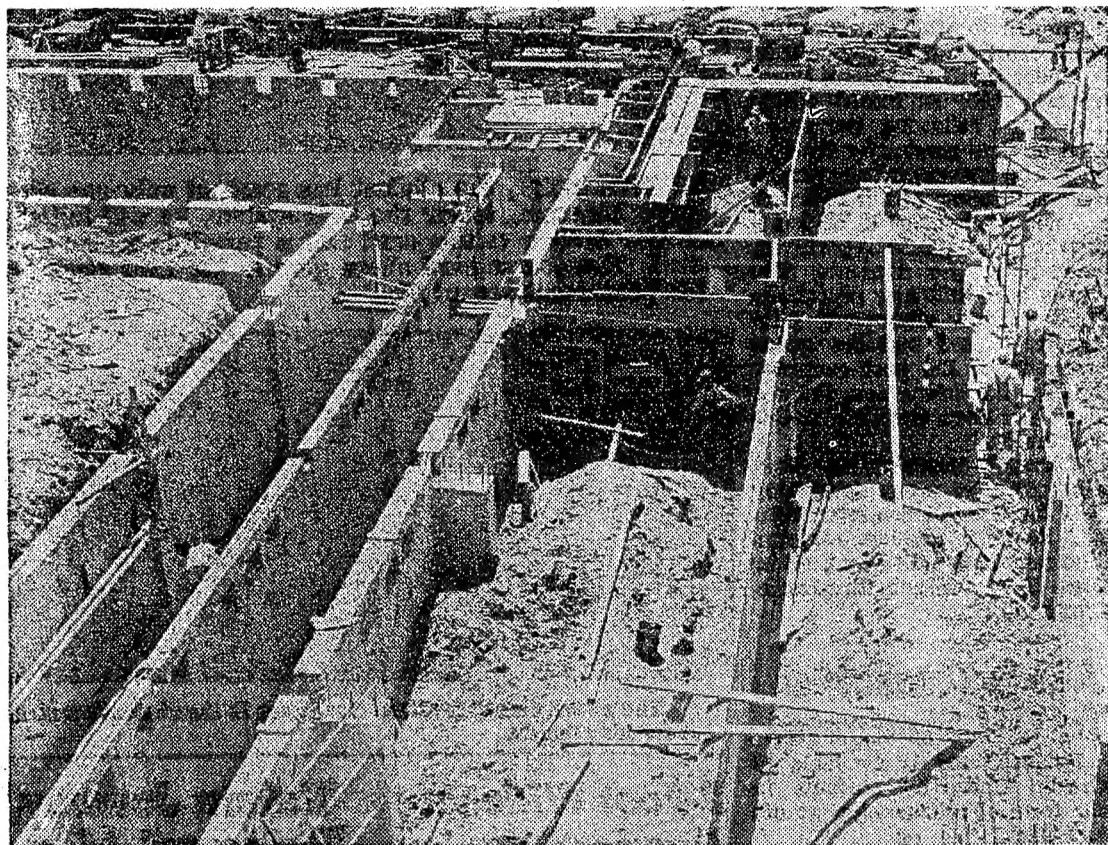

The Recreation Leadership course under the supervision of Ernie Goor, sponsored a party for the children at the Douglas County Youth Center on April 25.

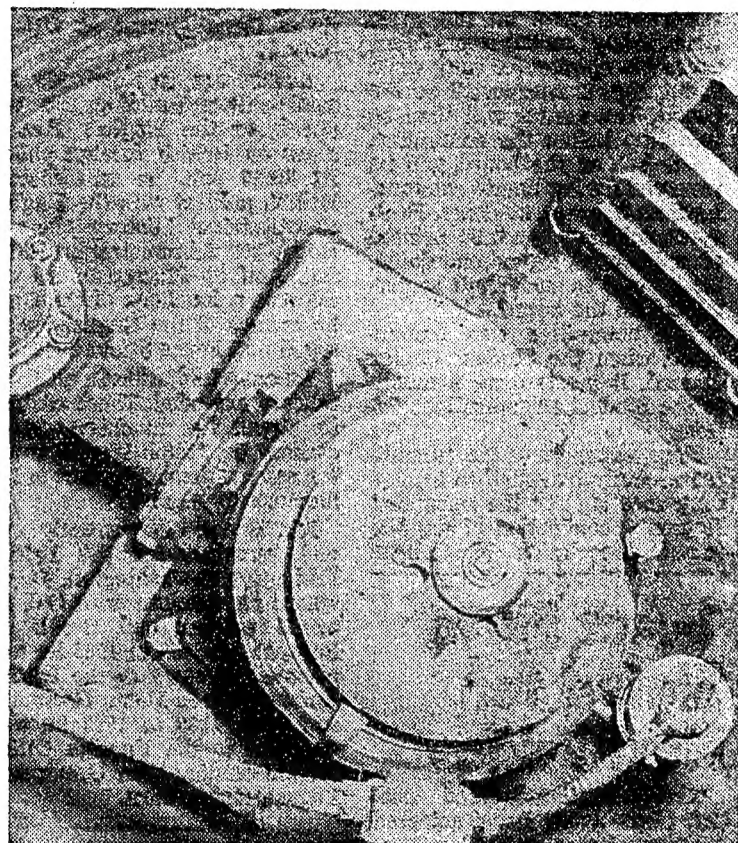

Left to right: Doug Cozad, Norm Firkins, Walt Nodean, Ron Rose, and Rod Hiddleston, recipients of Institute of Radio Engineers Awards. (See story on Page 1, Column 1.)

Gateway Managing Editor Rusty Harmsen questions paper stuffer Jeri Fahey about the intricacies of float building as co-stuffers Susan Rester and Marilau Thibault talk optimistically of having their float finished on time.

Going up! Concrete footings rise from the great "abyss" as the new wing construction south of the Applied Arts Building progresses.

"More than a hole." Beneath the cap lies some of the coolest water in town.

Instructor Don Kemp coaches students of the "Frisbee" in the delicate and dangerous art of catching the flying object with one hand. Certainly not a feat for the novice.

"I'm sorry Mr. Rockwell, but our University Nite's schedule is full. However, we may be able to work you into a TGIF party."

More Trouble for Football Opponents—Kadow Twins

Brian and Kevin . . . or is it Kevin and Brian? For those who think they could tell the two apart if they saw them in person, Kevin is on the right.

By Tom Ash

Omaha University football opponents next fall may have to call time out from time to time to collect their senses.

They are apt to keep running into a player who seems to be all over the field and think they

are seeing double.

Actually, that player is twins. Or rather, they are twins. Well, anyway, OU's two starting tackles next fall may well be two fellows named Kadow.

The 24-year-old twins, Brian and Kevin, are natives of Chevy-Chase, Md., a suburb of Washington, D.C.

Both made the Washington all-prep team as tackles in high school.

Coach Al Caniglia plans to use them as offensive tackles and defensive ends.

They went to Montgomery Junior College in Takoma Park, Md., for 2½ years, and while there they played the Coast Guard team from Cape May, N.J. The Coast Guard coach talked them into joining up; and while at Cape May, they played on the team with ex-OU footballer, Pat Hanrahan.

During the six-month stint, they went undefeated through ten games, including a win over their alma mater.

Hanrahan recommend OU to them and they contacted coach Caniglia. And so the Indian squad will be bolstered by two 6'4", 230-pound giants this fall.

Kevin and Brian are juniors in standing and have two years of football eligibility left.

Should be an interesting season.

Tickets Available For Sports Gala

Tickets are now available for the First Annual All Sports Gala.

Tickets for the dinner-dance, scheduled for 6 p.m., May 12, may be obtained at the Student Center Information Desk, in the Athletic Office and from 9 to 11 a.m. Monday through Thursday in the Administration Building ticket booth.

The Gala is being promoted by Dr. George Harris and Bill Gerbracht, who heads the ticket campaign.

Others who are lending their services to make the affair a success are: Sylvester Williams and Roderic Crane, who lead a committee to sell tickets to the faculty and staff; Roy Nolte, who is in charge of ticket sales to the ROTC department, bootstrappers and College of Adult Education, and Professor William Utley, who heads the public sales.

Guests of honor for the Gala will be all squad members of the OU varsity athletic teams, coaches, the band, Indians, cheerleaders and the ROTC color guard.

All other guests will find tickets on sale for \$2.00 and none will be sold after Thursday.

Following the dinner (6:00 to 8:30 p.m.), guests will dance to the music of the Carl Jay Orchestra. The dance will be from 9 p.m. to midnight.

There will also be a contest for the best table decoration in keeping with the sports theme. Individual college groups have been invited to register in Col. S. Swenson's office, room 177, Administration Building, if they wish to decorate a table.

This year's All Sports Gala replaces the traditional football banquet.

OU Baseballers Top Jays; Start Loop Play Tomorrow

Omaha University's baseball club chalked up its 10th win in 11 starts with a 9-5 victory over Creighton University Tuesday.

The Indians erupted for five runs in the opening frame off Blue Jay starter Jim Kros.

Ray Fehrman's triple to right was the big blow in the inning.

OU lefthander Barry Miller held the Jays at bay until he developed a blister on his throwing hand in the late innings. Steve Lipman came to his rescue, though, to preserve Miller's sixth win.

The tribe will again attempt to get the ball rolling in conference play with two seven-inning contests against Emporia State tomorrow.

Rain force postponement of OU's opening games in the Central Intercollegiate Conference and Kansas-Missouri-Nebraska League last Saturday against Washburn. The double-header will be made up May 18.

The Indians already hold one victory over the Hornets this year. An 8-3 win during the Sunflower Easter Tournament at Emporia. Emporia also lost two games to the title winning Indians last year.

The Indian baseballers will return to the University diamond Tuesday in two seven-inning tests against Nebraska Wesleyan. Starting time for the first contest is 2 p.m.

OU bounced the Plainsmen 15-3 in a wind-blown contest at Lincoln last year.

OU's sleepy Steve Lipman traveled to Topeka anyway last Saturday after failing to find out the doubleheader was washed out.

Lipman overslept and arrived at the Fieldhouse about an hour after the Indians were scheduled to leave on the trip. Finding no one in the area he then took off for Topeka thinking he had missed the bus.

Well, he hadn't but it turned out to be a good trip anyway.

Sayers, Hunter, Relay Make Good Showing at Drake; OU to Host CIC

Omaha University entered six men in the Drake Relays at Des Moines last weekend and brought home seven trophies. The team was made up of Roger Sayers, Alan Roberts, Lloyd Cardwell, Jr., Bruce Hunter and Jim Foster.

Bruce Hunter had bad luck in the hop-step and jump. Bruce had the event wrapped up going into the last jump with a leap of 44 feet 6½ inches. Hunter persuaded Luther Brown from Lincoln University to take a final leap. Brown was reluctant, but

took his jump anyway and jumped to 46 feet 1¼ inches to go ahead of Hunter and take first place.

Roger Sayers ran a 9.6 100 yard dash for a third in that event. Sayers was announced as third place, but the Des Moines Register printed a picture showing Sayers coming in second.

Sayers, Roberts, Foster and Hunter combined to place fourth in the 440 relay. The 880 team ran second but was disqualified. The team was composed of the same men as the quarter mile Lloyd Cardwell, Jr., running in the place of Alan Roberts. The team pushed Florida A and M to a new record in that event.

Jim Foster was fifth in the broad jump with a jump of 22 feet 11¼ inches.

Washburn was entertained by OU Thursday. The meet had been scheduled for Wednesday.

May 11 and 12 OU will be host team for the Central Inter-Collegiate Conference meet here.

Co-eds to Run In WRA Meet

The men's track will be invaded by Women's Recreation Association contestants in the WRA Track and Field Meet next Thursday afternoon, May 10, at 4 p.m.

Unaffiliated won the meet last year with a total of 40 points while Chi Omega placed second with 22 points.

The meet will feature such events as the high jump with the old record of 4'6"; the running broad jump, 13'5"; the standing broad jump, 7'5"; and the hop, step and jump with the record of 30'1".

Other events will be the shot put with a record of 29'5"; the discus throw, 80'9"; 50 yard hurdles, 9.6 sec.; 50 yard dash, 5.4 sec.; the 220 yard relay with a 31.5 record; and the softball throw with a record distance of 163.4 feet.

Women interested in entering the meet must sign up on the list posted in the women's PE hut by Wednesday. Contestants may enter only three events.

Crew Wins Intramural Bowling Title; Track Meet Scheduled for May 15-16

Underground Well Cools, Saves Money

The Crew won the intramural bowling championship Wednesday afternoon edging out the Fijis 76-74 in total points.

Both were tied going into the final week but the Crew won four points while the Fijis had to settle for a split.

The Pi Kaps finished third with Tri Chi one point behind in fourth place.

The TKE's won the interfraternity section with 22 points with the Pi Kaps in second place with 19 tallies.

High individual honors for the afternoon went to Lynn Jefferies and Gary Groberg.

Jefferies had a 247 game finishing with six strikes in a row. Groberg finished with a 621 series.

The TKE's had the high team honors finishing with a 794 game and a 2172 series.

The high individual honors for the season went to Groberg

and Larry Dvorak, both on the Crew team.

Groberg put together a 673 series while Dvorak came in with a 257 game.

The Crew team also had the season high series with a 2275. Lambda Chi (1) posted the high team game with 830 pins.

John Gomez and Brad Epstein had the highest averages at 189. Steve Cochran had a 188 average with Groberg finishing at 187.

The second annual doubles bowling tournament will be held next Wednesday at the West Lanes at 3:15.

Anyone wishing to bowl in this tourney should sign in the intramural office, Room 240 of the Administration Building.

Final Intramural Standings	
Crew	76
Fiji	74

Theta Chi	8

Outdoor Track

The men's intramural track meet is scheduled for May 15-16 on the University track.

The events scheduled for May 15 include: 120 yd. high hurdles, 100 yd dash, mile run, 440 yd relay, 880 yd relay, pole vault, discus, and the high jump.

The second day events are: 220 yd low hurdles, 220 yd dash, 440 yd dash, one mile relay, shot put, broad jump, and the javelin.

Spring Sports

Lambda Chi is the only undefeated team in the intrafrater-

nity softball league with a 2-0 record. The Pi Kaps and Sig Eps have won one and lost one.

The Bootstrappers and the "O" Club have won one and lost none in the independent league.

Softball Results

Lambda Chi 12	TKE 11
Pi Kaps 1	Sig Eps 0
Sig Eps 15	TKE 10

Lively Jessica Darling, U. of Texas '64

Brown-eyed Jessica Darling certainly is. She's also a cheerleader at the University of Texas in Austin.

Lives it up with this Lively One from Ford '62: the New Falcon Sports Futura!

Our Longhorn Lively One plays piano, is one of Texas' "10 Most Beautiful" girls, and an avid Falcon Sports Futura fan. This spirited compact handles so well you'll figure the controls should be indicated in Italian. New bucket seats are separated by a personal console, and

the rakish "Son of Thunderbird" roof can be covered in vinyl. No wonder all the liveliest student bodies are cruising the campus in the new Falcon Sports Futura. See it, and all the Lively Ones at your Ford Dealer's... the liveliest place in town!

By Gary Swanson

Looks like a plain old ordinary hole in the ground at the first glance. But, a second glance and some further inquiry showed that this hole in the ground was the beginning, and still is, one of the most unique air conditioning systems in Omaha.

It all started in 1938 when Omaha University consisted of the present Administration Building. In that year, it was believed that there was water underground on the O.U. campus.

Wells were dug and the belief became a reality. And, the reality turned Omaha U. into one of the first air conditioned universities in the country.

So, you may ask, what's unique about that?

It is unique because from these wells comes enough water at a cool 49 degrees to air condition the entire Administration Building.

Working together, these two wells pump from 285-300 gallons of water per minute, or 216,000 gallons in a 12-hour day. This water is pumped out of the wells and into a 200,000 gallon tank located in the basement of the Whitehouse.

From this tank it is pumped over to the Administration Building where it is cooled further and then put to work doing its job of cooling the building.

After it has served its purpose in the Administration Building it is pumped over to the library where it is again put to work doing a job of providing comfort for the people who use the building.

Quite a unique system. Two wells producing enough cooling power to do most of the job of air conditioning two of the main buildings on campus.

If you put this cooling power of these two wells into tonnage, which is how air conditioning is measured, you would come up with the equivalent of 305 tons of free air conditioning.

Because of this tremendous amount of free air conditioning the University is able to cool the entire Administration Building with a 95 ton unit.

Suppose you take the unique aspect and turn it into money saved in the cost of water alone over the years since 1938. No exact figure on this is available, but this in itself would be quite a sum.

Then you have to take into consideration the savings on power costs it would take to operate additional equipment. Another item would be the cost of maintenance for the cooling tower which usually accompanies commercial air conditioning systems.

Add these all up and you would come up with a tremendous figure, but the University has eliminated this figure, for the most part, because of its unique air conditioning system.

But, this isn't all. After the water has done all its duties as part of an air conditioning system, it is pumped back over to the basement of the Whitehouse to another tank. Then from here it is dispersed to different parts of the campus to water the lawns.

Unique indeed.

Law Day Observed On OU Campus

"Law Day, USA, 1962" was observed May 1 on the OU campus.

Commemoration of this nationally proclaimed day was highlighted by an address by Mr. A. G. Ellick, president of the Omaha Bar Association. Mr. Ellick spoke on "The Law—Wellspring of Liberty" to an audience of over 500 students and faculty in the Applied Arts auditorium.
